info-punkt.eu/bonusmaterial2

Info-Punkt is pleased to announce the release of the second issue of *Bonus Material*, a series of PDF publications, that invites artists to present a selection of alternative documentation of already exhibited work. *Bonus Material II* features the work of artist Jasper Spicero showing unreleased documentation of two 2012 solo shows. Two PDF documents edited by Burkhard Beschow together with the artist are available for free download at the Info-Punkt page. The publication contains exclusive pictures and videos and is released in digital form only. A launch event was held March 12, 2014 at Center, Berlin (center-berlin.com).

About Jasper Spicero

Born 1990 in South Dakota, Jasper Spicero received his BFA from the Pacific Northwest College of Art and Design in 2013 and currently lives and works in Brooklyn, New York. His work has been exhibited internationally with recent solo shows including *Intriors II* (American Medium, NY) and *Plant Display* (bubblebyte.org). He is founder and curatorial director of Generation Works Gallery in Tacoma, WA and organized *Open Shape*, a series of exhibitions showcasing artist-designed 3D-printed objects.

About Info-Punkt

Info-Punkt was founded in 2011 by three artists based in Leipzig. The name was borrowed from a former insurance office that they had planned to rent as an exhibition space. Although they never ended up there, the title stuck and various exhibitions were hosted in the living room of an apartment nearby. Info-Punkt left their last premises in 2013 and now focuses on art related publications.
